

'OMICS AND EPIDEMIOLOGY

Bridging biology, 'omics,
statistics and epidemiology
in the era of precision medicine.

A TWO-DAY CONFERENCE. MAY 25 & 26, 2017.

Attend at the Cisco Toronto Innovation Centre or virtually, in the Cisco online classroom.

Learn the 'who, what,
where, when, and
why' of genomics,
metabolomics,
microbiome, and,
phenomics, as applied
to human health and
precision medicine.

Speakers:

Dr. Peter Kraft, Professor of Epidemiology (Harvard)

From McMaster's Population
Genomics Program:

Sonia Anand
Joseph Beyene
Russell de Souza
David Meyre
Guillaume Paré
Zena Samaan

Guest Speakers from the
Faculty of Health Sciences:

Philip Britz-McKibbin
Paul Moayyedi
Jennifer Stearns
Michael Surette
